THE NEW ORLEANS COLLECTORSHIP.

The question which has been long in dispute—the New Orleans Collectorship—has at last been settled, and satisfactorily if is said, to the Republican party in Louisiana. Kellogg and Packard, who are exponents of Republican principles in that unfortunate State, submitted to President Hayes, four names from which he might select a collector for the New Orleans port. The persons named were ex-Governor Michael Hahn, George L. Smith, Albert Leonard, and Chester B. Darrall, ex-member of Congress. The selection of any one of these gentlemen would be satisfactory to Kellogg and Packard, and on their statement would satisfy the party in Louisiana. The President held a consultation with a number of the most responsible Republicans of that State, and after a candid consideration of the question, and after a thorough discussion of the character, standing and the qualifications of the four persons named, the President decided to nominate Mr. Smith, and therefore his name will be sent to the Senate. George L. Smith is a substantial business man of Shreveport. He is a young man, being only 38 years old. He was born in New Hampshire, served in the war of the Rebellion, and after the close of the conflict he settled in Louisiana and engaged in mercantile pursuits. He was a member of the General Assembly of Louisiana in 1870, '71 and '72. He now owns a newspaper in Shreveport, and is also president of the Shreveport Savings Bank and Trust Company. On the death of Samuel Peters, member elect of Congress, in 1873, Mr. Smith was elected without opposition to fill the vacancy, taking his seat in December, 1873, and served till the 4th of March, 1875. The Democrats will call him a carpet bagger, but he is an upright, honorable gentleman, and will serve the Government honorably in the position of collector of the port of New Orleans.

CAN'T USE THE TELEPHONE.

We have in our possession a letter and a circular from General C. H. Haskins, General Superintendent of the Northwestern Telegraph Company, in relation to the use of the telephone by private parties. The use of the telephone is so interesting and its construction so simple, that thousands of them have fallen in the hands of private persons. General Haskins says the law is very strict in protecting patented articles of that kind, and without license no one is allowed to make for his own use, sell, buy, or in any manner put in operation, any of the telephones now in use. The private use of the telephone is becoming so general that the Bell Telephone Company have commenced proceedings at law against all persons known to have made or used the telephone or any part of it. Agents will be sent to the places where telephones have been made contrary to law, and if the persons so making or using them can be found, proceedings will be instituted against them, unless they pledge themselves to cease making and using the instruments. General Haskins advises all who have manufactured, sold, or used the telephone or any parts thereof, in Janesville, to stop at once, and thus avoid any difficulty with the Bell company, as the company mean business in protecting their rights. The firm of L. G. Tillotson & Co., of New York, who have for some time been engaged in the manufacture and sale of a portion of the telephone, have issued a circular in which they notify all persons that they have ceased such manufacture and sale, and that all parties who have bought parts of telephones of them, are requested to return them at once, and their money will be refunded. This movement on the part of the telephone companies will prevent a great deal of social amusement growing out of that marvelous little instrument.

THE PRESIDENT'S FARCE.

The position in which President Hayes is placed regarding his civil service policy, is awkward and humiliating in the extreme. He has placed himself in that peculiar and unhappy position of being without a party. He has divided the party in Congress and out of it. He has been unfortunate in so framing his civil service policy that it neither satisfies his friends nor appeases his enemies. In short he is a political enigma. He attempted to break the Congressional ring, to crush Congressional dictation, to purify the civil service, in fact, to run the Government himself without advice or suggestion from Senators or Representatives; and yet no President ever went back on his own policy more completely than has President Hayes. It takes a positive character to adopt a policy and carry it out; Hayes is a negative character. It requires a President of dauntless courage, of iron will and of sound judgment, to fight Congress and be sure that he will come out the best of the two; but does Hayes command with the ability of a Jackson or a Lincoln? He issued his ridiculous civil service order and some of those whom it was intended to reach defied the order, and others treated it with silent contempt; and yet the President last week, while he would not rescind it, acknowledged that in not a single instance had a person been touched for violating the order. It would have been better for him and for the service had it never been written; but he would have gained the confidence of the civil service reformers, and the respect of both parties, had he shown the ability and the courage to have made the order a power in his Administration. But as it is, he quietly permits No. 1 to be a dead-letter. On the other hand, had he laid down, after mature judgment, his rules pertaining to the reform and the purification of the civil service, and had exercised sufficient force of character to have followed them to the letter, President Hayes would have been admired for his pluck and zeal. But he has failed to respect his own order, and in many cases has forgotten his cherished policy. Congressmen are "not allowed" to dictate appointments, and yet some Congressmen have quite an influence with the Administration in filling positions in the civil service. We have in our mind several appointments, and not good ones by any means, dictated by Southern members in Congress. And thus President Hayes has been quite unfortunate in not being able to command excellent judgment and firmness. He is striving to make his administration a pure and economical one, and in a measure he will succeed. But his unjust Southern policy, his civil service scheme, which is absolutely farcial, his inability to be a leader, and his lack of appreciation of men and things, have done very much to weaken his influence. These have divorced him from the party, and many have lost all faith in him as a promoter of Republican principles. Hence the party is running without him; and so strong is it in principle, and so abiding is the necessity for its success, that the time has not yet come when it will surrender the control of the Government to the Democracy.

One of the most terrible and destructive storms ever known in the West, visited some portions of Iowa and Illinois on Sunday night and Monday morning. In its devastating effects, it has never been surpassed. The storm was made up of wind, rain, hail, thunder and lightning. Its visitation will be remembered with sadness for years. Houses were blown down, lives were lost, stock was killed, and fences and bridges were swept away. The full particulars will be found in our telegraphic columns. At Fond du Lac the storm on Sunday night was very severe. It raged with fury, swelling the river, and placing part of the eastern portion of the city under water. Several bad washouts on the railroads in the vicinity have been reported. In the Northern part of the State, on the Black River, the rise in the river was three feet and a half in one night, and on Monday it was still rising, and the logs were rattling down in a lively manner, which made the saw-mill men very happy, for not a log had been sawed in that whole section of country this season, as the logs could not be floated down, on account of the extremely low water.

There will undoubtedly be a severe struggle in the Senate over Fernando Wood's tariff bill, which is pending in the House of Representatives. Blaine will be one of the champions against the measure, and will not only speak against it in the Senate but his voice will be heard on the stump. In the Senate on Monday he offered resolutions declaring that "any change in the tariff laws would damage the business interests of the country, and that a tariff for revenue should be maintained so as to afford adequate protection to American industry." Within the last few years there has been a great change in the minds of manufacturers in regard to protection. While the "American System," as Henry Clay called it, has for years been popular among manufacturers, the sentiment has changed materially, and now we have arguments from extensive manufacturers in favor of a tariff for revenue only.

Another representative of American character has passed away—William Orton, President of the Western Union Telegraph Company, whose death occurred on Monday morning. Mr. Orton was a remarkable person. He was what we generally term a self-made man,—that is, he principally educated himself, and by his own energy, tact and ability, rose to prominence, influence, wealth, and position. In telegraphic circles his power was commanding. A brief sketch of his interesting and successful career, will be found in another column.

Fall River, Massachusetts, is cursed with high-toned thieves and defaulters. The citizens of that handsome and industrious city are now frenzied with excitement over the discovery of another immense fraud. They have'n't yet quieted down from the effects of the Chace defalcation of $500,000; and yet on the heels of that comes the terrible blow that one George T. Hathaway, a cousin of the villian Chace, has stolen over $600,000. He is treasurer of the Border City and Sagamore mills, and from this company stolen the enormons sum named.

Congress was never known to pass a needful act in a prompt and business-like manner.—*Chicago Post.*

Give the devil his dues. The Post must remember that Congress passed the silver bill over the veto message of the President in two hours after the latter reached the Capitol, the bill going through both houses with a rapidity which surprised the country and perplexed the President.

We give in our telegraphic columns the particulars of a scandal in one of our State Institutions—the Institute for the Deaf and Dumb at Delavan. It was unearthed today at Madison by the State Board of Charities and Reform. The chief person implicted in the affair is a high official.

It is reported at San Francisco that a hurricane visited the Island of Tahiti, in February, during which one hundred and twenty lives were lost, and vast property destroyed.

An attempt is being made to pass a bill in Congress which provides for the reissuing of fractional currency. It should be killed on the spot.

There is not positive peace nor actual war in Europe. Matters are dragging and the news is uninteresting and speculative.

A SENSATION.

Special dispatch to the Janesville Gazette.

MADISON, April 23, 1878.—Wisconsin is not behind other States in scandal sensations. For some time it has been known that charges of a serious nature have been made to the State Board of Charities and Reform, against a prominent official of one of the Charitable Institutions, but nothing could be ascertained from the close-mouthed committee until last evening, when the Board held a secret session to consider the charges made. It was rumored that the Delavan Deaf and Dumb Asylum was the place, and charges that the Superintendent thereof had made a scandalous assault on one of the matrons. In an interview with one of the members of the Board this morning, your correspondent learned enough to definitely establish the Deaf and Dumb Asylum at Delevan the place, and the Superintendent the person named in the charges. Whether the charges can be maintained yet remains to be seen. The gentleman interviewed authorized the statement that he was loth to accept the testimony of a mute, as they did not interpret such matters as a person possessing all their faculties, which would indicate pretty strongly that the person on whom the scandalous attempt was made is one of the school officers of that Institution. It is rumored that an official and one of his assistants have been criminally intimate with not only the mutes but also the lady teachers. The Board had a meeting this morning in the Capitol and filed with the Secretary of State the preliminary certificate of the Board, and the Governor, to enable Milwaukee county to proceed to erect an Insane Asylum, after which they adjourned to meet at Delavan to-night, where the charges against the officers of the Deaf and Dumb Asylum will be considered with the Local Board of that Institution. Should the charges be proven and made public they will startle the country with their heinousness. There is much excitement here about the matter.

THE EAST.

Plans of the Czar of Russia and His Further Movements—The German Cabinet and the Eastern Difficulty.

LONDON, April 23.—A correspondent at St. Petersburg telegraphs that he is informed by the highest authority, that the Czar has decided that if war with England follows, he will pass the summer at Tsarskoe Selo, where is the imperial palace founded by Peter the Great. If peace is firmly established the Czar will entrust reins of government to the Czarowitz for a year and a half, during which time he will travel throughout Europe. This would be a great event in European political history, as it would afford an opportunity for its rulers to express their congratulations to the Czar in person.

While the German Government still declares that it is anxious to intervene, diplomatically, to avert a resort to arms on the part of England, the German Imperial Cabinet is secretly making all preparations for war.

The summer residence of the Czar, Tsarkoe Selo, is situated seventeen miles south of St. Petersburg, and contains about 15,300 inhabitants. The feature of the town, however, is the palace, founded in 1710, which was a favorite home of Catherine II. A fire consumed the greater portion of the palace in 1822, but it was rebuilt in great splendor. The huge pile of buildings stands in the center of a great park.

WISCONSIN MATTERS.

Killed by Lightning—Accidentally Shot.

MILWAUKEE, Wis., April 22—About 2 o'clock on the afternoon of Friday, C. C. White, formerly of Kenosha, who resides near Friendship, in Adams county, while plowing in his field, was instantly killed by lightning. The bolt struck him on the head, a little over the left ear, throwing him several feet, tearing his hat into atoms then passing down on his body and on the plow handles. It struck one of the oxen, killing it also, but leaving the other unharmed.

LACROSSE, Wis., April 22—Yesterday morning Mr. G. Werner, one of La Crosse's most respected young German citizens, while on an excursion to French Island, a short distance above this city, with a party of friends, was instantly killed by the accidental discharge of a revolver held by himself, with which he had been shooting at a target. Mr. Werner was engaged in the wholesale tobacco business in this city. He was 32 years of age, and leaves a wife and three children.

THE STORM.

Further Particulars of the Great Hail Storm in Iowa and Illinois.

SIOUX CITY, Iow, April 22—A terrible cyclone swept over the country east and west of us at 3:30 Sunday afternoon, entering the State above the Missouri Valley Junction and passing northeasterly across to Storm Lake Pomeroy, and Fonda, in Monona county. Trees were torn up by the roots along the rivers, and the house of J. R. Thurston was wrecked completely. A wing of the house of Mrs. Reilly was struck and torn to pieces, and P. Reilly, standing in the wing, was picked up, carried over the main building, and over some trees near by, and set down uninjured. J. J. Hughes' house, in the same neighborhood, was entirely destroyed. The family were away from, and escaped injury.

The force of the storm was terrific, destroying fences, uprooting trees, overturning corn-cribs, etc. Horses, colts and cattle were picked up and carried a considerable distance. Near Onawa the house of Mr. White was destroyed, and the contents scattered for miles. There was hardly anything in the house but what was broken. The family fortunately were away. The track of the storm was a half mile to a mile wide. There was very heavy hail; a number of stones were fastened together in one mass measuring fourteen inches in circumference. Near Onawa, a man driving a double team of horses, with wagon, harness and driver were taken up bodily and carried several yards, and set down uninjured. On the Illinois Central Railroad east of here the damage is more serious accompanied by loss of life.

The whirlwind or tornado passed over Storm Lake from the southwest. Three-quarters of a mile east of town the residence of Alfred King was struck, lifted from the foundation and dashed into thousands of pieces. Mr. King's mother was instantly killed, and found some distance from where the house stood. The other members of the family escaped unhurt. The lighter timbers of the house were pounded into kindling wood, and trees and orchards were torn off and carried away.

GALESBURG, Ill., April 22.—Nearly 300 panes of glass were broken in Lombard University by yesterday's storm, and the public schools suffered about the same. A. N. Van Ripen had a horse killed by the large hail stones. Two men who were walking across a field near the city, were bruised terribly before they could find shelter. The accounts that are coming in hourly show that this was the most severe storm that ever visited this part of the country.

AT LAST.

The President has Appointed George L. Smith Collector of the Port of New Orleans.

WASHINGTON, April 22.—The President stated to-day that he had decided to appoint as Collector at New Orleans, George L. Smith, a banker, at Shreveport, who was a member of the Forty-third Congress. He was Colonel of a New Hampshire regiment during the war, and settled in Louisiana when mustered out. He is urged by Wells and Anderson.

WILLIAM ORTON.

Sudden Death of the President of the Western Union Telegraph Company—Biographical History of the Deceased.

NEW YORK, April 22.—Hon. William Orton, President of the Western Union Telegraph Company, died this morning. The immediate cause of the death of Mr. Orton was apoplexy, with which he was stricken at 11 o'clock last night.

He attended church yesterday morning and a collection was taken up after service and Mr. Orton examined the receipts, and expressed pleasure that so large an amount had been obtained. On returning to his home, he ate dinner with a good appetite, and then went to drive in Central Park. After supper he complained of feeling tired and went to bed at an early hour. He awoke soon after, feeling sick, and vomitted. At 11 o'clock he was seized with a fit of apoplexy, and his right side appeared to be completely paralyzed.

SKETCH OF HIS LIFE.

Mr. Orton was born in Cuba, Alleghany county, New York, June 14, 1826. His education was rude and limited so far as he received it from others. Like many other men who have been called to large trusts, he was mainly his own instructor, choosing such studies as seemed most needed to aid him in working out the practical issues of a laborious life to which he had devoted his utmost energy. From the year 1845 to the opening of the war, Mr. Orton was connected with the book trade. In 1862 Mr. Orton was appointed Collector of Internal Revenue for the Sixth District of the city of New York. Here his strongest elements first found development. The duties were new, and the rules governing them rude and elementry. To act safely under them required a clear and appreciative knowledge of the general principles of law, and the way he discharged the duties of the office drew upon him public notice.

In 1865 Mr. Orton was appointed Commissioner of Internal Revenue at Washington, the duties of which position he fulfilled so well as to elicit a highly complimentary letter from Secretary of the Treasury McCulloch, when Mr. Orton resigned his position to accept, in 1865, the Presidency of the United States Telegraph Company, then unanimously tendered him by its Board of Directors. No sooner had he entered upon its duties than he began an exhaustive examination of its affairs, and soon ascertained that the company was sinking money rapidly and largely. A vigorous attempt at economy accomplished something to arrest the accumulating loss. But it soon became evident that new appliances must be used, the line pushed through rapidly to the Pacific, and new capital enlisted to a large extent, to give any hope of final success. It soon became more and more evident that the opposition between the United States and Western Union companies must cease, as each could not bear the depleting opposition of the other. The two companies were, therefore, consolidated under the name of the Western Union.

In the new organization, Mr. Orton was elected Vice President, which office he gave up in 1867 to take that of President of the Western Union Company, which position he held until his death.

The condition of the telegraph system to-day is the result of his careful, just and energetic administration. His death is the result of a devotion to duty, which, at several periods, has seriously threatened his life, and has been a constant source of anxiety to his friends.

Alternately Shaken and Scorched

By the paroxisms of chills and fever, the wretched sufferer for whom quinine has been prescribed essays in vain to exterminate the dreadful disease with that hurtful palliative, which at best only mitigates the violence of the fits, and eventually proves highly injurious to the system. In order to effect a *thorough cure* of malarial fever, whether intermittent or remittent, or to render the system impregnable to its attacks, Hostetter's Stomach Bitters should be used daily. That this medicine is a searching eradicant of diseases generated by miasma, and a reliable safeguard against them, is a fact so widely recognized in this and other countries that to adduce evidence in support of it is unnecessary; but were it either essential or desirable to do so, it may well be supposed that from the testimony corroborative of its claims, which has been accumulating during the last twenty-five years and over, sufficient proofs might be gathered to convince the most inveterate skeptic.

A Remarkable Result.

It makes no difference how many physicians, or how much medicine you have tried, it is now an established fact that German Syrup is the only remedy which has given complete satisfaction in severe cases of Lung Diseases. It is true there are yet thousands of persons who are predisposed to Throat and Lung Affections, Consumption, Hemorrhages, Asthma, Severe Colds settled on the breast, Pneumonia, Whooping Cough, etc., who have no personal knowledge of Boschee's German Syrup. To all such we would say that 50,000 dozen were sold last year without one complaint. Consumptives try just one bottle. Regular size 75 cents. Sold by all druggists in America. dec3deod-18weow6m

Womanly Elegance and Grace.

There are few among our fair readers who would not gladly possess the rosy complexion, the beautiful form, the cheerfulness and elasticity of spirits, that good health always imparts. Parker's Ginger Tonic will restore these feminine attributes to thousands whose shattered constitutions are due to functional derangement. It radically cures Dyspepsia, gives tone to the enfeebled organs, dissipates Headache, Neuralgia and Nervousness, relieves painful Periods, and safely establishes regularity of the female functions. It soothes the nerves, imparts ease and strength to mothers themselves, and through the milk to their nursing babes, prevents the Nausea and Constipation peculiar to ladies in a delicate condition, and greatly relieves the sufferings of this period. It acts like a charm on the digestive machinery, speedily counteracts the weakening effects on the bowels of excessive heat, injudicious diet, or impure water, and is warranted to cure the worst forms of Colic, Cramps, Diarrhœa, Dysentery, Bloody Flux, Cholera Infantum, and even Asiatic Cholera if taken in time. AFTER 12 YEARS!

—:o:—

Twelve years ago the 15th of April,

A LITTLE DRY GOODS STORE was started

ON WEST MILWAUKEE ST.

Then every one said it would not succeed as it was not on the right side of the river; but notwithstanding the hard times and downfall of goods, it now stands on the solid rock of Cash. We have a much larger stock than ever before, comprising a full line of

PRINTS, DRESS GOODS,

Cottonades, Table Linens, White Goods, Towels, Hosiery, Corsets, Gloves, &c., &. Our goods are bought for cash, and as we have no expenses like those who pay from $600 to $1,000 a year rent, we can sell goods as cheap as the cheapest. Thanking the people of Janesville and vicinity for their kind favors for the past twelve years, we hope to merit the same in the future. Call and see us.

T. J. CAIRNS & BRO.,

FURNITURE

RETAILED AT

WHOLESALE PRICES!

Don't buy a dollar's worth until you have got Britton & Kimball's prices. They are selling Marble Top Chamber Sets cheaper than any house in the city—their own make.

Seasoned Lumber,

And warranted not to fall to pieces.

PARLOR FURNITURE!

The largest and most stylish lot ever shown in this county. The prices they ask, will suit any one wishing to purchase.

ENAMELED CHAMBER SUITES!

Beautiful and cheap. Call and see them. Dining Room and Kitchen Furniture very low. Look around and get prices at other places, then come and see us, and we will do you good. Children's Carriages, Velocipedes, Boys' Wagons, Toy Carts, &c. Don't fail to call and see us. Next door to Postoffice. We buy all goods for Cash, and will give you the benefit of discounts.

Thanks for past favors,

Western Cattle This Year.

Kansas City Correspondence,

I estimate the drive at 295,000, higher figures than previous from the fact that I find that Carauthers will drive 11,500 cattle instead of 8,500; and Ellison 22,000 instead of 14,000. A large portion will come from the portion of Texas south of San Antonio and in the neighborhood of Corpus Christi. Cattle in Texas are selling now at least 50 cents per head lower prices than they were three weeks ago. A good many cattle have been contracted for to be delivered to ranches in Nebraska, Wyoming and Colorado. The proportion of beefs to stock cattle is light. A heavy percentage is one and two-year old steer and cows. Cattle are in very good condition except those on the coast—they are generally in better condition than last year. The grass is good and the winter has been mild.

Literary Changes in New York.

The world of letters has been this season subject to a number of mutations. The Galaxy has stopped, D. R. Locke has left the Evening Mail, and Bayard Taylor and Mark Twain are off for Europe. Bonner has been visited with severe domestic bereavement which may lead to the sale of the Ledger. The stoppage of the Galaxy throws a large amount of magazine matter into the hands of other periodicals, which are now burdened with offerings. I would say to all writers who are ambitious of a place in New York journals or periodicals that their chance is so small as to be hardly worth the effort. Harper's have enough accepted matter to fill their Magazine for the next two years, and other publishers are equally well supplied. The departure of Bayard Taylor and Mark Twain will hardly make any room for other literateurs, since their works have now but a small sale. The latter is considered the best humorist of the present day. He certainly has written some capital things, but the public tires of fun more rapidly than of anything else. More changes are to be expected in the literary world before the close of the year. Two or three journals are in a tottering condition, and may be soon closed. This is a sad prospect, but perhaps the threatening danger may be averted.—*Correspondence Rochester Democrat.*

Justice Accorded to an Eccentric Woman on Her Death Bed.

From the Washington Post, April 18.

The public are aware that for some days past Dr. Mary Walker has been seriously ill at Providence Hospital. It is very probable that this notable woman is drawing near her end, and, unless all medical predictions prove false, she will in a few days be where unkind sayings and thoughtless pen-thrusts will have no power to give her pain.

The subject of this sketch has acquired an almost national reputation, and yet the circumstances connected with her checkered career are known to comparatively few persons. Dr. Mary Walker was born about the year 1830, in Oswego, New York. Her parents were the best of people, who looked upon their daughter, not as a wayward, but as a peculiar girl. Mary was a superior scholar, and made good use of the few opportunities afforded her. She is a regular graduate in medicine, although many have believed that medically she is an imposter. Quite early in life she married a Dr. Miller, but the match was an unfortunate one. She detested alcoohol in all its forms, while he was not true to her. About twelve years ago she tried to obtain a divorce, but he successfully resisted and defeated her on the ground that he had always been ready and willing to live with her, but that she deserted him without cause. When the war broke out Mary espoused the side of her section with her whole soul. At one time she had charge of a United States hospital in either Kentucky or Tennessee. She was captured and confined in Libby Prison four months. The Confederates believed her to be a spy and treated her harshly, but her unbending will never yielded. When they learned her true status in the United States army she was liberated. She came to Washington at the fall of Richmond. Of her personal eccentricities, Mary Walker is known particularly for the astonishing tenacity she has exhibited upon the subject of dress. It may be that she is partially insane, but no person ever lived who had a kinder or purer heart.

MAGNOLIA STORE

Being desirous of changing my business and place of residence, I offer my STORE at Magnolia Corners for Sale; also my house and lot, convenient to the store. The lot contains about three acres, well covered with Fruit trees, etc., consisting of about 70 Apple trees, in bearing (this orchard has produced 200 bushels in one season), in *very good* condition; Cherry trees, Siberian and Russian Crabs, a half dozen Pear trees, very thrifty, Currants, Gooseberries, Raspberries, of different varieties, Strawberries and Grapes. I should prefer to sell the stock with the store. Will sell very cheap for cash, or on easy terms for *good* paper. Will sell store and stock alone if purchaser desires. It is a good point for country trade, but I have interests elsewhere that require my personal attention. J. F. HOWARD.

CATARRH

A PHYSICIAN'S TESTIMONY.

30 Years a Physician. 12 Years a Sufferer. Tried Regular Remedies. Tried Patent Medicines. Permanently cured by

SANFORD'S RADICAL CURE.

MESSRS. WEEKS & POTTER,—Sirs: I have practised medicine for thirty years, and have been a sufferer myself for twelve years with Catarrh in the nasal passages, fauces and larynx. I have used everything in the *materia medica* without any permanent relief, until finally I was induced to try a patent medicine (something that we allopathists are very loth to do). I tried —— and divers others until I got hold of yours. I followed the directions to the letter, and am happy to say have had a permanent cure. Your RADICAL CURE is certainly a happy combination for the cure of that most unpleasant and dangerous of diseases.

Yours, respectfully,
D. W. GRAY, M. D.,
Of Dr. D. W. Gray & Son, Physicians and Druggists, Muscatine, Iowa.

MUSCATINE, Iowa, March 27, 1877.

The value of this remedy must not be overlooked in the cure of those

SYMPATHETIC DISEASES,

Affections of the Eye, Ear, Throat, Lungs and Bronchial Tubes which in many cases accompany a severe case of Catarrh. The inflamed and diseased condition of the mucous membrane is the cause of all these troubles; and until the system has been brought properly under the influence of the RADICAL CURE, perfect freedom from them cannot be reasonably expected.

It is but three years since SANFORD'S RADICAL CURE was placed before the public, but in that short time it has found its way from Maine to California, and is everywhere acknowledged by druggists and physicians to be the most successful preparation for the thorough treatment of Catarrh ever compounded. The fact will be deemed of more importance when it is coupled with the statement that within five years over 250 different remedies for Catarrh have been placed on sale, and to-day, with one or two exceptions, their names cannot be recalled by the best-informed druggist. Advertising may succeed in forcing a few sales, but, unless the remedy possess undoubted specific medical properties, it is absolutely certain to fall into merited obscurity.

Each package of SANFORD'S RADICAL CURE contains Dr. Sanford's Improved Inhaling Tube, with full directions for its use in all cases. Price $1.00. Sold by all wholesale and retail druggists and dealers throughout the United States and Canadas. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

THE GAZETTE.

TUESDAY, APRIL 23, 1878.

MILTON.

—College Chapel was crowded Wednesday evening by an audience that assembled to see Mrs. Jarley and her famous wax works, which were to be presented under the auspices of the young misses of the Congregational church. The exercises were as follows:

Music, medley piano and flutes—Miss E. A. Borden, and the Messrs. Plumb.
The character of Mrs. Jarley was taken by Miss Hattie Robinson.
Little Nell—Belle Walker.
John—Will Borden.
Peter—Frank Palmiter.
The personations were:
Chinese Giantess—Bessie Tompkins.
Sewing Girl—Hattie Smith.
Robinson Crusoe—Charles Ferris.
Mrs. S. A. Winslow—Miss C. A. Plumb.
King Lear—Henry Walker.
The Unnatural Giggler—Miss Alma Bacon.
Music, Duett—"There's a Sigh in the Heart—Miss E. A. Borden and Miss Hattie Butz.
Siamese Twins—W. L. Ferris and Giles Belknap.
Live Yankee—W. H. Plumb.
Alexander the Great—E. Kelty.
Priscilla and John Alden—Miss S. E. Walker and Ed. Home.
Little Bo-Peep—Alice Tompkins.
Music, Piano Duett—"Waves of the Ocean,"—Misses E. A. Borden and M. E. Goodrich.
Columbus—Henry Harris.
Babes in the Woods—F. O. Wyman and M. J. Plumb.
Mother Goose—Lottie Ferris.
Nero—L. J. Plumb.
Father Time—F. G. Borden.
The Vocalist—Signoriana Squallana—Miss Hattie Butz.

The entertainment closed with all the personations on the stage wound up and moving in perfect time to the animating tune of "Yankee Doodle." The wax figgers" were appropriately costumed and the personations well taken, and as it was the first appearance before a Milton audience of Mrs. Jarley, was very much of a success. The music of the evening was a feature worthy of special mention, being of more than ordinary excellence, and very creditable to those who presented it. After the entertainment ice cream and cake were served by the ladies of the church and a large number partook thereof. The receipts of the evening were about $26 00 and are to be expended on the parsonage.

—The Wisconsin Journal of Education is becoming a publication of rare interest to the friends of education in this State, and the recent numbers are universally conceded to be the superior of their predecessors. Not only the teachers but also every district officer should peruse the Journal. We congratulate Messrs. Whitford and Pradt upon the success and high position which the Journal has attained to under their editorial management. We commend the Journal to those who are not immediately identified with the schools as worthy of their patronage.

—Mr. and Mrs. H. A. VanCampen, of Cannon Falls, Minnesota, who have been visiting friends here, left for home last week.

—Miss Gilbert, of Christiana, who has been spending the winter in Washington, was in town last week, visiting friends.

—Last December, Mr. Henry Garlock, while ploughing on his farm in Cerro Gordo county, Iowa, unearthed an instrument eighteen inches in length, and pronounced, by those who ought to know, to be a buffalo spear. It is very aged, and was undoubtedly used by the Indians of Iowa in an early day. Mr. D. L. Sprague secured the relic, and presented it to the College Cabinet.

—Prof. W. G. Bonham, a graduate of Milton College class of '77, has taken charge of the Tomah high school, as Principal, at a salary of $1,100 per annum. Prof. Bonham was teaching at Shiloh, New Jersey, when the telegram came to him tendering the position at Tomah. He accepted, and took charge of the school on the 15th instant. We congratulate the Tomahites upon securing so thorough and cultured a teacher, and friend Bonham, that his "lines have fallen in so pleasant a place."

—Mexican dollars will not buy railroad tickets, except at a discount of ten per cent.

—St. Paul stocks are putting money in the purses of some Miltonians.

—Eggs have "riz," but alas too late, the producers having lost all ambition to *eggsel* in their chosen department, and are content to *set* idly waiting for some nobler work to hatch.

—Miss Lillie Hoxie, who is being treated by Dr. Vilas, of Chicago, for throat and ear diseases, was home last week. We are glad to hear that she is improving under the treatment of Dr. Vilas and trust that he may effect a complete cure.

—Mrs. Collins has made some improvements in her door yard lately that add very much to its appearance and attractiveness.

—The infant child of Mr. and Mrs. James Ainsley, of Lima, was intered in the village cemetery last Wednesday.

—The maples are donning their garb of green and the lacteal fluid raises a richer cream, but nevertheless some of us are not just what we seem.

—Some of our citizens were favored with serenades last Thursday night by a trio of male voices. They sang sweetly and we hope to hear them again.

—We would invite the attention of our readers to the following law passed last winter.

"Section 1—The overseers of highways within the road district in any town in this State, or in any unincorporated village in the town, and any person or incorporation, may build sidewalks along the line of any street or highway of gravel, earth, stone, plank, or other material, not to exceed eight feet wide and repair the same when necessary.

Section 2—It shall be unlawful for any person to ride, drive, or lead any animal on said side walk at any season of the year, or pile timber, wood, posts, or throw any offal upon said side walks, or otherwise obtruct the travel on the same.

Section 3—Any person offending against any of the provisions of Section 2 of this chapter shall be liable to a fine of two dollars for each and every offense, to be recovered with costs, and shall also be liable to the builder of said walks for all damages. Justices of the Peace of any town in the county shall have jurisdiction of any violation of the provisions of this chapter and all fines when collected shall be paid into the town treasury, and be applied to the repair of sidewalks."

It is the intention of some of our citizens to see the above law enforced and those who are in the habit of violating its provisions, had better "look a little out.

—The name of Mr. Ira Flagler was accidentally omitted in the list of contestants for the college contest that is to occur this evening.

—Charley Smith is the youngest drover in the business. He has brought down several carloads of cattle from Iowa lately.

—Dr. E. S. Bailey has accepted a position in the office of Dr. Hall, Professor of Surgery in Hahnemann Medical College. Dr. Hall has a very extensive practice in the city of Chicago.

—H. P. Clarke, one of the leading merchants of Brodhead, was in town Friday, visiting his relatives. Henry's Milton friends are always glad to "shake" with him.

—Rev. W. D. Webb, of Shopiere, occupied the desk at the Seventh Day Baptist church, last Saturday morning and Rev. Mr. Dunn preached at Shopiere Sunday.

—A son of Mr. Charles Fuller, who was stopping at Mr. Landphere's, three miles east of this village, was shot through his right hand last Saturday morning, and his little finger was amputated by Dr. Allen the same day. The accident occurred in the following manner: The young man had not got out of bed, but was talking to his chum named Green, who had just arisen, when the latter picked up a rifle and asked Fuller to show him a mark to shoot at. Fuller held up his right hand, Green took sight, off went the gun and the mark was hit. Of course the shooter was sure that he didn't pull the trigger, but the victim realizes that something hit him. Foolish people are not all dead yet and won't be until both those who take aim and those who are aimed at get hit in some vital part.

—Report of spring examinations in second superintendent district. Whole number of applicants for certificates of all grades, 157. At Janesville High School 9 were present. At Johnstown 25. At Afton 31. At Clinton 42. At Milton 50. One applied for first grade and won. Twenty-six for second grade, nineteen were successful. One hundred thirty for third grade, eighty-six of whom were successful. The number of applicants for second grade has been much larger this spring than usual, and more in proportion have reached the required standing. This is a favorable indication, and shows that the teachers are striving for higher attainments and better qualifications for their work. We anticipate good work in our schools the coming term.

—Some of the farmers in this section have already turned out their young stock to pasture.

VEGETINE

FOR

Chills, Shakes, Fever and Ague.

TARBORO, N. C., 1878.

DR. H. R. STEVENS:—
Dear Sir—I feel very grateful for what your valuable medicine, Vegetine has done in my family. I wish to express my thanks by informing you of the wonderful cure of my son; also, to let you know that Vegetine is the best medicine I ever saw for *Chills, Shakes, Fever and Ague*. My son was sick with measles in 1873, which left him with *Hip-joint* disease. My son suffered a great deal of pain, all of the time; the pain was so great he did nothing but cry. The doctors did not help him a particle, he could not lift his foot from the floor, he could not move without crutches. I read your advertisement in the Louisville Courier-Journal, that Vegetine was a great Blood Purifier and Blood Food. I tried one bottle, which was a great benefit. He kept on with the medicine, gradually gaining. He has taken eighteen bottles in all, and he is completely restored to health, walks without crutches or cane. He is twenty years of age. I have a younger son, fifteen years of age, who is subject to *Chills*. Whenever he feels one coming on, he comes in, takes a dose of Vegetine and feels the last of that *Chill*. Vegetine leaves no bad effect on the system like most of the medicines recommended for Chills. I cheerfully recommend Vegetine for such complaints. I think it is the greatest medicine in the world. Respectfully,
MRS. J. W. LLOYD.

VEGETINE—When the blood becomes lifeless and stagnant, either from change of weather or of climate, want of exercise, irregular diet, or from any other cause, the Vegetine will renew the blood, carry off the putrid humors, cleanse the stomach, regulate the bowels, and impart a tone of vigor to the whole body.

VEGETINE

FOR

Dyspepsia, Nervousness, and General Debility.

BERNARDSTOWN, MASS., 1878.

We, the undersigned, having used Vegetine, take please in recommending it to all those troubled with *Humors* of any kind, *Dyspepsia, Nervousness* or *General Debility*, it being the Great Blood Purifier. Sold by R. L. Crowell & Sons, who sell more of it than all other patent medicine put together.
MRS. L. F. PERKINS,
MRS. H. W. SCOTT,
JOSEPHUS SLATE.

Vegetine is a great health restorer—composed exclusively of bark, roots and herbs. It is very pleasant to take; every child likes it.

VEGETINE

FOR

Nervous Headache and Rheumatism.

CINCINNATI, O., April 9, 1877.

H. R. STEVENS, Esq:—
Dear Sir—I have used your Vegetine for *Nervous Headache*, and also for *Rheumatism*, and have found entire relief from both, and take great pleasure in recommending it to all who may be likewise afflicted. FRED. A. GOOD,
108 Mill St., Cinn.

Vegetine has restored thousands to health who had been long and painful sufferers.

VEGETINE

Druggists' Testimony.

MR. H. R. STEVENS:—
Dear Sir—We have been selling your remedy, Vegetine, for about three years, and take pleasure in recommending it to our customers, and in no instance where a blood purifier would reach the case, has it ever failed to effect a cure, to our knowledge. It certainly is the *ne plus ultra* of renovators. Respectfully,
E. M. SHEPHERD & CO., Druggists,
Mt. Vernon, Ill.

Is acknowledged by all classes of people to be the best and most reliable blood purifier in the world.

LIVER.

Head, nerves, kidneys, bladder, womb, and blood affections of the urinary organs, gravel, scrofula, rheumatism, catarrh, asthma, bronchitis, dyspepsia, &c.

Dr. Price's reputation has been acquired by candid, honest dealing and years of successful practice.

My practice not one of experiment, but founded on the laws of Nature, with years of experience and evidence to sustain it, does not tear down, make sick to make well; no harsh treatment, no trifling, no flattering. We know the cause and the remedy needed; no guess work, but knowledge gained by years of experience in the treatment of Chronic diseases exclusively; no encouragement without a prospect. Candid in our opinions, reasonable in our charges, claim not to know everything, or cure everybody, but do lay claim to reason and common sense. We invite the sick, no matter what their ailment, to call and investigate before they abandon hope, make interrogations and decide for yourselves; it will cost nothing as consultation is free. Visits made regularly.

TUESDAY, APRIL 23, 1878.

CITY AND COUNTY.

BRIEFLETS.

—No dust.

—April has sprung a leak.

—The Blind Institute now has 77 in its family.

—A joyous dance at Concordia Hall last evening.

—Dandelions and lyin' dandies are plenty this spring.

—Hens are the only ones who find it profitable business to lay around.

—The ladies, and others interested, will not forget McKey's millinery opening, this evening.

—J. S. Wulf, stage manager of the Arcade, has signed the pledge and donned the red-ribbon.

—The women who have new bonnets are about discouraged. No chance for a street promenade.

—Lou Shaw of Chicago and Frank Williams of Beloit, promise to cross cues in Janesville at an early date.

—The Catholic Total Abstinence Society gave a successful ball last evening, which was largely attended.

—April showers may bring scours, if the men-folk don't wipe their feet before tramping on the kitchen floor.

—The Mutual Improvement Club met last night and carried out the programme as given in yesterday's Gazette.

—The musical recital of the pupils of Mrs. St John and Prof. Filmore will take place this evening at All Souls church.

Gen. Thos. H. Ruger, arrived from Atlanta, Ga., this afternoon, to attend the funeral of his father to-morrow afternoon.

—Dan Whalen, whose name has been frequently mentioned in the criminal record, was discharged yesterday, his time being up.

—The lightning rods on the High School building should be looked after. The conductors of the public schools always require frequent examination.

—A private letter received yesterday by Mr. Tallman's family, from New York, states that Mr. Tallman's condition is about the same, though he is resting comfortably.

—Kate Claxton will appear at the Opera house May 1st. It would be well to hurry up with that additional exit before that time. She will doubtless draw well.

—Col. Slaughter had only eight hearers last night, the other attractions in the city proving too great. He gave his lecture, however, and it was received with evident satisfaction.

—Prof. Severance gave his closing party of the season, last evening. It was a dress affair, and was largely attended. The Professor has won many friends in this city, and justly so.

—The pledge which the red-ribbonites present does not forbid the signer from selling or handling intoxicants, but simply makes the signer promise not to let any of it slip down his gullet.

—The soiled dove who was seen drunk on the streets the other day in company with a man of like moral standing has been warned to get beyond the city limits, and is looking about for a new perch.

—Marshal Keating closed the saloons last night at 11 o'clock, not merely making the keepers shut their front doors, but also making them "douse their glimmers." That is business. He says he intends to keep it up.

—On and after to-night the red ribbon meetings will be held in Lappin's hall. The cause of the change is to get a certain class to attend the meetings who are either out of the habit of getting inside a church or who don't care to travel quite as far as to the Congregational church.

—John Thom was up before Justice Prichard yesterday, charged with disorderliness. John said that he was a resident of Jefferson, and would never get drunk away from home if he could get free. He begged off with one day in jail promising to go to his quiet village home at the earliest opportunity.

—A fellow who will hitch a dollar watch chain to the lowest button-hole of his vest, and go down the street dangling it, with the air of a man of property, becomes wonderfully modest about his red-ribbon, and tucks that one side for fear some one will think him flashy. Consistency thou art a jewel, from the dollar store.

Prof. Filmore has decided to accept the proffered position of Professor of Music in the Milwaukee College, his duties to commence September 15. He will remain in Janesville until the middle of July. Janesville will suffer a heavy loss by the departure of this gentleman, but there is plenty of time yet in which to say good-bye.

—Prisoners who are on the verge of the jim-jams at the jail are not given whisky to brace up their nerves, but red pepper washed down with boiling hot water. This will prove interesting reading to tramps and others interested who will do well to cut this out and carry it in their pocket for the benefit of their fellows who are strangers to the city.

—A private letter received from Dr. D. C. Rowland, of Troy, Wisconsin, states that a certain article which appeared in this paper, and other papers, concerning him is in all respects false. The Gazette gained its information from sources which it deemed reliable, but of course the Doctor ought to know best about his own affairs, and we give him the benefit of his denial.

—From private letters received from New York it appears that Miss Lavinia Goodell has undergone the surgical operation, which was the chief occasion of her visit East, and that there is a fair prospect for her surviving it. One letter says: "All is over, with every prospect of recovery as far as we can now see. She will be kept under the influence of opiates for a few days and we hope in three weeks will be able to sit up ten minutes." Another says, under date of April 18; "The operation which Miss Goodell came here for, took place yesterday afternoon, and as far as we can now see there is every prospect of her recovery. She will not probably be able to see people or do business for several weeks."

A NEW DEAL.

The First Meeting of the New Aldermanic Board.

The Mayor's Inaugural, Giving a Concise Review of the Past, and a Peep at the Future.

Appointment of Standing Committees, and a Discussion of the License Question.

Some Very Interesting Reading for Tax-Payers.

The Common Council convened in special session at the City Hall, last evening, His Honor, Mayor Norcross in the chair, and the following Aldermen were present: Messrs. Church, Davies, Fitzgibbon, Hemming, Hutchinson, Joyce, Lawrence, Vankirk and Wilcox, Alderman McKinney being absent.

After the calling of the roll by the Clerk, Mayor Norcross delivered the following

INAUGURAL MESSAGE:

As we enter upon the duties of the new municipal year, let us briefly look at the condition of the city, so that we may more readily determine what our work should be.

Some of the members of the present Board have been residents of the city for almost thirty years, and none less than ten or twelve years. Some of you have held positions in the city government for years, and all but two have been aldermen, so that our constituents have the right to expect that we know what is needed for their benefit and how to accomplish it.

IMPROVEMENTS.

The city is slowly but surely gaining in wealth and population. Our fine water power has within the last year been made more valuable and secure. Some of our manufacturing establishments have felt the pressure of hard times, but now, thanks to the enterprise and pluck of the stockholders, they are all in running condition. If we can succeed in holding those we have, for a few years longer, our success is secured as a manufacturing town.

Within the last few years we have incurred the expense of changing from the hand fire engine to the steam fire engine; have built two new engine houses, and a city hall and offices. We have erected three new school buildings, and repaired the older ones, so that it is not likely that we shall be required to make any large appropriations of public money for several years.

FINANCES.

Our debt is as follows: Bonded debt, $45,000; of which $35,000 draws interest at 8 per cent., and $10,000 draws interest at 7 per cent., and a floating debt of $1,000 for hose, due in October, 1878.

Our running expenses last year were

School Fund	$15,500 00
General Fund	7,000 00
Fire Department Fund	5,000 00
Gas Fund	2,000 00
Judgment Fund	320 00
Ward Funds	4,500 00

Last year a writer for one of the eastern periodicals made a statement of the municipal debt of the United States. In a list of 130 cities only four had a smaller debt than the city of Janesville.

THE FIRE DEPARTMENT

seems to be in good condition. It has on hand 1,000 feet of new hose, also 1,000 feet somewhat worn, 1,500 feet of old hose, and new heaters for both engines. The losses by fire last year were very trifling. The fire companies are a credit to our city; for their discipline, promptness and zeal they are entitled to the commendation of every citizen. I doubt if the fire department of this city has ever been in so efficient a condition as now. Buildings, engines and equipments are mostly new.

THE SCHOOLS.

No particular change has been made in the schools since last year. The aldermen who visited them a few weeks since were highly pleased at the interest manifested by teachers and scholars. The buildings and yards have been kept in excellent order.

OUR STREETS

have suffered severely under the long rains of the past winter. We ought to take this matter of roads, road building and repairing into serious consideration. Every man in the city who owns a team will add his earnest approval to any effort of ours in this matter of roads. We have some excellent streets and some main thoroughfares leading to and out of the city, that have been, during the past winter, bottomless sloughs of despond. Within the past four years the wards have expended $19,000, including what they now owe on the repair of streets. Streets have been graded at an enormous cost, and sometimes ruined adjacent property, and where the streets were graded it has been impassable in wet seasons by reason of the poor material used on the surface. Each season when the taxes are raised we send out a host of men to work on the streets; the gutters are cleaned out; the ruts smoothed down; fresh soil put on, a little gravel here and there, and soon the money is gone and no permanent good is accomplished. I know of a $300 job on one street which lasted until the frost went out on the succeeding spring, but since then it has amounted to nothing. There are many such jobs. A city thirty years of age, built on a rock, with an inexhaustable supply of river-bank gravel, should have fine streets at little expense. During the past year I have had some correspondence with the officers of Eastern cities on this matter of roads. Those towns that build good roads, of good material, have excellent highways the year round at but little expense. We want road surface sixteen inches thick at least. If gravel is used, we should separate the coarse from the fine—use the coarse at the bottom and finish up with the fine. We have between fifty and sixty miles of streets. About one-fourth of this mileage is used as main thoroughfares. If we only built two miles a year, we should in ten years, accomplish the desired result.

I respectfully suggest some changes in our present

PLAN OF WORKING:

1st. Let us *own* the two engine teams and employ men to use them. During the past eight years we have paid $300 per annum to each of two teams to haul the engines. The actual service of those teams has not averaged two weeks in the year during each of the eight years. Then we pay these same teams with a driver and wagon, $3 a day to clean our streets, and the teamster makes his own time. We have city work for two teams constantly, and we pay twice as much for the use of two teams each year, as the teams and outfit would cost.

2d. We have made excellent progress in utilizing the labor of that unfortunate class who go begging from town to town. We can, with our experience of last year, do much better this year. Instead of using them four hours a day in scraping the main streets, and work one squad in the forenoon and one in the afternoon, we should furnish them with work the whole day, away from the sympathizing, joking, crowd of bystanders. They should be at the gravel pit or some quarry.

3d. We have no superintendent of street commissioner, by our charter, but if the committee on highways will counsel together, as to what road shall be graded, macadamized and repaired, and how much shall be done each season, and then put on a competent working man to oversee the work and the workers and to take charge of the whole matter, keep the time of the teams and men, and direct the whole work, it would, in my judgment, be the means of saving thousands of dollars to the city and would result in securing good roads to the city limits on every main thoroughfare, as well as on the lesser traveled streets, would make our tramps self-supporting and reduce their number.

There is no outlay of money which would bring such speedy and large returns as a thorough improvement of the streets leading into the city. Trade would increase, property would become more valuable, while every grocer, wood and coal dealer, and physician, in short, all who use teams would rise up and bless us. Now is the time, while labor is cheap and tramps are numerous.

THE LICENSE QUESTION.

During the past year 39 licenses have been granted to sell intoxicating liquor. I understand that some of the persons have given up the business; others say that they would be glad to. Would it not be better for all parties to refuse license to those who during the entire year have violated their bonds and the charter. In the interest of such as have kept their oaths, and have observed the ordinances as to closing saloons and not selling to minors and habitual drunkards, and have kept quiet, orderly places, and as a reprimand to those who have not obeyed the law, I would respectfully suggest that you select twenty of the best saloons and give them a license and a fair chance to obey the laws and make a living, and refuse to grant any more. In other States licenses have been held at a high figure, and only a few granted, and it is said that such a plan aids in maintaining good order.

THE COW ORDINANCE.

The Council of last year passed a Cow Ordinance, and the Mayor has tried to enforce it. The law was a good one, and fully as stringent as could have been expected. All horses, sheep, swine, and cattle, except milch cows, are prohibited from running at large from May 1st to October 1st of each year, while from October 1st to May 1st none of the animals named can run in the street. A large number of animals have been put into the pound, and many more could have been, except for the reason that persons cannot be found to drive the offending brutes. I have offered good wages to men and boys out of employment; have endeavored to enlist the City Marshal in the enterprise, and have urged citizens to aid in this matter, but all stand back, and with the most courteous of smiles are willing to leave the glory and labor wholly to the Mayor. One man only has been found who could be induced to do the work, but he at last deserted the cause. Bills were posted, urging citizens to make complaints to the Pound Master. The gallant "three hundred" petitioners with

Cows to the front of them,
Cows to the right of them,
Cows to the left of them,
Bellowing and thundering

have failed so far as I know to even make complaint to the Pound Master or even present a name of an offending citizen.

However, we have made a good beginning. If it is your pleasure to amend the present law, by striking out the exception in favor of milch cows, or even if you let it be as it is, the law shall be enforced as far as I can enforce it.

TAXATION.

By a recent decision of our Supreme Court, the assessment of property has become a matter of grave importance. To discharge this duty well, and so that our taxes can be collected, will require the appointment at your hands, of two excellent, clear-headed business men—men who are familiar with all kinds of property and its value—and unless such men be appointed, we shall have trouble in collecting taxes.

For the purpose of avoiding litigation, let us reduce all important motions to writing before they are presented to this body for deliberation.

IN CONCLUSION.

The comfort and safety of each citizen, as well as the security of property, depends more upon the action of city government than it does upon the state or national government. Our actions effect persons and property directly. It is honor which we ought to appreciate—to have in our keeping the welfare of a city for one year.

Let us so discharge our trusts, that those who follow after us as city officers shall find in the records which we leave behind us, an honest purpose at least to do our duty well.

At the conclusion of the message, Ald. Lawrence withdrew his resignation as Alderman of the first ward.

THE COMMITTEES.

The Mayor announced the following standing committees for the ensuing year:

Finance—Alds. Lawrence, McKinney and Vankirk.
Judiciary—Alds. Davies, Wilcox and Hutchinson.
Police—Alds. McKinney, Hemming and Joyce.
Fire Department—Alds. Vankirk, Hemming and Church.
Printing—Alds. Hemming, Fitzgibbon and Wilcox.
License—Alds. Wilcox, McKinney and Lawrence.
Manufactures—Alds. Joyce, Church and Hemming.
Schools—Alds. Hutchinson, Wilcox, Hemming, Lawrence and McKinney.
Gas—Alds. Fitzgibbon, Church, Joyce, Vankirk and Davies.
Highways and Bridges—Alds. Church, Fitzgibbon, Davies, Joyce and Vankirk.
Parks—Alds. McKinney, Lawrence, Hutchinson, Hemming and Joyce.
Railroads—Alds. Vankirk, Hutchinson, Joyce, Davies and McKinney.

On motion of Ald Lawrence, the rules of the last Council were adopted for the government of this, except that the meeting night be Monday, instead of Tuesday.

On motion of Ald. Church, the Council proceeded to elect a President of the Council. Ald. Joyce and Church were appointed tellers.

Whole number of votes	9
D. Davies	7
Scattering	2

Ald. Davies was declared elected President.

ASSESSORS.

On motion of Ald Church, the Council proceeded to the election of Assessors; one from each side of the river, and electing one from the West side first:

Whole number of votes	9
Ed. Murdock	5
E. C. Smith	1
James Church	1
William Hodson	2

Mr. Murdock was declared elected for the West side.

The ballot for the East side resulted:

Whole number of votes	9
Ed Connell	5
E. L. Dimock	4

Mr. Connell was declared elected.

SALARIES.

On motion of Ald. Church the salary of the City Clerk was fixed at $800.

Ald. Davies moved that the salary of the City Attorney be fixed at $500.

Ald. Church moved to amend by fixing the same at $300. Lost, 7 to 2.

The original motion was then adopted.

On motion of Ald. Davies, A. D. Wickham was appointed Police Justice *ad interim*.

THE OFFICIAL ORGAN.

Ald. Davies moved that the City Times be designated the official paper of the city.

Ald. Lawrence moved to amend by inserting the Recorder. Lost.

The vote on Ald. Davies' motion stood—Ayes—Ald. Davies, Fitzgibbon, Hemming, Hutchinson, Joyce—5.

Noes—Ald. Church, Lawrence, Vankirk, Wilcox—4.

The motion was adopted.

THE LICENSE QUESTION.

Ald. Davies moved that the City Council now vote whether they should grant licenses or not.

Ayes—Ald. Joyce, Lawrence, Vankirk, Wilcox—4.

Noes—Ald. Church, Davies, Fitzgibbon, Hutchinson—4.

Ald. Hemming was excused, and Ald. McKinney was absent.

The Mayor voted no, and the motion was lost. He remarked that he was in favor of granting licenses, provided a motion was made placing it before the Council as a clear issue, but deemed the motion as stated too vague, and consequently voted against it.

Ald. Davies presented a petition for a sidewalk, fence and lamp posts along the mill race on River street. Placed on file.

Ald. Fitzgibbon moved to reconsider the vote by which the Council refused to grant license.

Ayes—Ald. Church, Davies, Fitzgibbon, Hutchinson, Joyce, Wilcox—6. Noes—Ald. Lawrence, Vankirk—2. The motion was adopted.

The motion to grant license was again voted upon and all the Aldermen voted aye.

Ald. Church moved that the license fee be fixed at $50.

Ald. Lawrence moved to amend by fixing the sum at $100.

The vote on this amendment stood: Ayes—Ald. Lawrence and Wilcox—2. Noes—Ald. Church, Davies, Fitzgibbon, Hemming, Hutchinson, Joyce, Vankirk—7. The motion was lost.

Ald. Wilcox moved to amend by fixing the sum at $99.50. Lost by the same vote.

Ald. Hutchinson moved to amend by fixing the sum at $75.

MISCELLANEOUS BUSINESS.

Ayes—Ald. Hutchinson, Joyce, Lawrence, Vankirk, Wilcox—5. Noes—Ald. Church, Davies, Fitzgibbon, Hemming—4.

The amendment was adopted and the license fee fixed at $75.

On motion of Ald. Davies the City Attorney was instructed to see if there was not some way by which the property owners on the Race could be made to repair River street.

Ald. Davis presented a petition from John Griffiths, asking permission to erect a building east of and adjoining his building on West Milwaukee street.

It seems that there is some question whether such obstruction can be placed in the river, but after considerable discussion and an opinion from the City Attorney, further consideration was postponed until the next meeting.

Ald. Lawrence moved that when the Council adjourn it be to next Monday evening, at 8 o'clock and that the regular meetings of the Council be held on alternate Monday evenings thereafter. Adopted.

Ald. Hutchinson moved that a gas post be erected on the corner of North Third and Main streets, and one on the corner of North Third and Cornelia streets. Referred to the Gas Committee.

Ald. Church offered an amendment to Rule 17, that in no case shall the rules of this Council be suspended upon the passage of any bill where money is to be drawn from the City Treasury. Lost. Ayes—Ald. Church, Hemming, Joyce, Wilcox—4.

Noes—Ald. Davies, Fitzgibbon, Hutchinson, Lawrence, Vankirk—5.

On motion of Ald. Church, Burr Robbins was allowed to exhibit his Great American and German Allied shows in this city, free of license.

On motion of Ald. Davies the Council adjourned.

THE SPIRITUAL BISHOP.

W. Irving Bishop appeared at the Opera House, last evening, and performed some most wonderful and mysterious tricks, in the line of so-called spiritual manifestations. A committee was chosen from the audience consisting of Dr. Henry Palmer, Mr. Anson Rogers, Mr. D. P. Smith, Mr. Henry Doty, and Mr. M. C. Smith, whose duty it was to inspect every little detail, to see if they could possibly detect the trick or explanation which Mr. Bishop claims to be at the bottom of all his pranks. He denies in toto any spiritualistic aid, and clearly showed how some of the manifestations were caused. He submitted himself to be tied and bound by the Committee, so that it seemed a physical impossibility for him to move at all. Not only were his feet and hands tied firmly to each other, but the bandages on his feet were nailed to the floor, those on his wrists nailed to a post behind him, and still another bandage placed around his neck, and nailed also to the post behind him. After spending about twenty minutes in thus tieing him up, the curtains were drawn around his cabinet, and in about two seconds bells began to ring, and were soon thrown out of the cabinet with much force. A glass of pop was placed in the cabinet and speedily drank up, and yet on pulling aside the curtains, the hands were found apparently unmolested. Mr. Rogers finally set in the cabinet blindfolded, and held Mr. Bishop, besides his being tied, to see that his body did not move. The same manifestations took place. Mr. Bishop proposes to explain this and other of the manifestations to-night. His mind-reading over a wire, as explained by him was a most interesting scientific test. Mr. Bishop has a most happy way of presenting his different feats, and is full of wit and sprightliness. The entertainment should drew together a large audience to-night, as there will be a complete change of programme, and some of the manifestations not explained last night, for lack of time, will be shown up to-night.

THE CIRCUIT COURT.

In the absence of Judge Conger, Hon. David W. Small, the presiding judge of the Milwaukee Circuit, opened court here this morning, and adjourned the spring term until such time as Judge Conger is expected to return.

The regular business of the term will be taken up on the 6th of May next, until which time the jury are excused.

In order that the interests of justice might in no wise suffer through his absence, Judge Conger also procured Judge Small to hold his last jury term at Jefferson. Judge Small kindly consented to help out his brother judge, in addition to doing all the work in his own circuit, which is the heaviest of any in this State.

Judge Small tried numerous civil and criminal cases at Jefferson, among others an important murder trial, and transacted the business so satisfactorily that after the adjournment the members of the Jefferson bar met, and passed the following complimentary resolutions:

WHEREAS, Hon. David W. Small, judge of the second judicial circuit of Wisconsin, has presided at our term of court just closed, with marked ability and unvarying judicial fairness, and has promptly and speedily disposed of the business of the term while giving an ample opportunity to all to be heard, and has been commendably watchful of the interests of both the public and individuals, and at all times equally courteous to all, therefore,

Resolved, That we seize this opportunity to extend to Judge Small the thanks of the Jefferson county bar, for the highly satisfactory manner in which he has presided at and disposed of the business of the term.

Resolved, That this preamble and these resolutions be entered upon the minutes of our Circuit Court, and published in the Jefferson Banner.

THE KNOTTY RIBBON.

The temperance people are still at work. At the Congregational church last night there was a large audience. Good singing, good talking, and good working made the meeting a success. There was a larger proportion of men who donned the ribbon than on any previous evening. Sergeant Childers gave an earnest, in fact red-hot talk, and stirred the audience in a lively manner. Dr. McCollister, who never seems to run short of ammunition, also gave a spirited address. To-night the meeting will be held in Lappin's hall. If those who have the meeting in charge would see to it that the exercises commence promptly at the time advertised, and then have them closed at a reasonable hour, the public would be much better pleased and many more would attend. More promptness and more brevity would be a marked improvement.

ODD FELLOWS' CELEBRATION.

Next Friday the Odd Fellows' celebration at Whitewater takes place. All in this city who desire to attend the same are requested to meet at the hall at 8:30 o'clock that morning. The line of march will then be formed, and proceed up Main to Milwaukee street, thence east on Milwaukee street to the head of the street where they will enter carriages. At Milton they will be joined by the brethren of that place. On reaching Whitewater a procession will again be formed, the members will march into the village to the speakers' stand.

A MENTAL WRECK.

A sad case of sudden insanity is reported from Evansville. A farmer named C. E. Powell, living two miles west of that village, became raving last Sunday, and picking up his little boy, declared that he was going to cut his head off as the spirits had bidden him do so. The child was rescued in time to prevent the carrying out of the threat, and the father was pinioned. He was brought to this city to-day. He has the strange notion that he is going to be hanged, and piteously begs for his freedom, declaring himself innocent of the offense of which he supposes himself to have been found guilty.

THE WEATHER.

The thermometer at 7 o'clock stood at 59 degrees above zero, and at 2 o'clock at 78 degrees. Rainy. One year ago to-day at corresponding hours the thermometer stood at 60 and 75 degrees above.

The indications are northeast to southeast winds, stationary pressure and temperature, partly cloudy weather, and numerous light rains.

SALES OF THE LEAF.

A CARD.

To the public of the city of Janesville, and particularly those who turned out in the rain storm to do honor and attend the funeral of our boy, Tommy F. Lawler, who lost his life in attempting to save the life of a fellow being, we tender our grateful thanks. To the Catholic T. A. & B. Society, the Press, Fire Department, and all others who participated, and showed their appreciation of a noble soul, whose only aim in life was to try to be good, honorable and just, we thank you, one and all.

JOHN LAWLER,
MARGURET LAWLER.

Strictly Pure.

It is well known that while Dr. Price's Cream Baking Powder has been made for many years without reducing its standard of perfect purity, there is not another baking powder in the market that can stand the test for purity. Chemists and physicians use Dr. Price's Cream Baking Powder in their own families.

CITY NOTICES.

—F. C. Cook means business. He has added largely to his stock of jewelry and silver ware and has an elegant display of fine goods, which he asks the public to inspect, knowing that thew will bear a careful examination. His stock embraces a large variety of suitable gifts and wedding presents, and as in the past so in the present and future, he proposes to handle goods on a close margin.

COUNTY COURT, ROCK COUNTY—In the matter of the estate of John Brown deceased.

On reading and filing the petition of Catharine Nightengale, representing that her said son late of the city of Janesville, in said county, died intestate on the 15th day of April, 1878, leaving property in said county, and praying that Clark E. Ranous may be appointed administrator of the estate of said deceased, it is ordered that said petition be heard before this court, at the office of the judge thereof, in the city of Janesville, in said county, on the 10th day of May next, at 10 o'clock a. m.

And it is further ordered, that notice of said petition and hearing be given by publishing a copy of this order for three successive weeks, once in each week, prior to said hearing, in the Janesville Gazette, a daily newspaper printed and published in the said city—Dated April 18th, 1878.

AMOS P. PRICHARD,
County Judge.
